

Plan Component Outline

Forestwide Plan Components

The following is an outline of topics for which plan components will be developed. Those topics in **bold** are the specific topics the planning rule has identified as needing plan components. Several topics may be integrated and covered by one set of plan components. These are in the order in which the working groups would address.

1) **Initial Topics**

- a) **Air Quality**
- b) **Cultural/ Heritage Resources**
- c) **Renewable and Non-Renewable Energy and Minerals**
- d) **Infrastructure – Transportation and Utility Corridors**
- e) **Land Status and Ownership**

2) **Sustainability and diversity of Aquatic plant and animal communities**

- a) Aquatics
 - a.i) **Restore or maintain Aquatic integrity**
 - a.ii) **Aquatic Structure, Composition, Function, & Connectivity**
 - a.iii) **Key Aquatic Characteristics**
 - a.iv) **Rare Aquatic Plants and Animals Communities**
 - a.v) **(Optional)** Threatened and Endangered Aquatic Species
 - a.vi) **(Optional)** Aquatic Species of Conservation Concern
- b) Riparian Areas
 - b.i) **Restore or maintain Aquatic integrity**
 - b.ii) **Structure, Composition, Function, Connectivity**
- c) Watersheds
 - c.i) **Restore or maintain Watersheds integrity**
 - c.ii) **Structure, Composition, Function, Connectivity**
 - c.iii) **Soil/ Soil Productivity**
 - c.iv) **Water Quality**
 - c.v) **Water Resources**
 - c.vi) **Public Water Supplies**

3) **Sustainability and diversity of terrestrial plant and animal communities**

- a) Vegetation
 - a.i) **Restore or maintain terrestrial integrity**
 - a.ii) **Terrestrial Structure, Composition, Function & Connectivity**
 - a.iii) **Key Terrestrial Characteristics**
 - a.iv) **Rare Plants Communities**
 - a.v) **Diversity of Tree Species**
 - a.vi) **(Optional)** Threatened and Endangered Plant Species
 - a.vii) **(Optional)** Plant Species of Conservation Concern
- b) Wildlife

- b.i) **(Optional)** Threatened and Endangered Wildlife Species
- b.ii) **(Optional)** Wildlife Species of Conservation Concern

4) Timber/ Grazing Management

- a) **Timber Management**
- b) **Timber Harvest**
- c) **Timber Harvest for other than Timber production**
- d) **Limitation on Timber Harvest**
- e) **Grazing and Range Lands**

5) Recreation

- a) **Recreation Setting**
- b) **Recreation Opportunities**
- c) **Recreation Access**
- d) **Scenic Character**
- e) **Recreation Facilities**
- f) **Public Use and Enjoyment**

6) Designated Areas

- a) **Wilderness and Recommended Wilderness**
- b) **Eligible, Suitable, and Designated W&S Rivers**
- c) **Other Designated Areas, including RNA's**

7) Social and Economic Sustainability

- a) **Social Sustainability**
- b) **Economic Sustainability**

8) Management Areas/ Geographic Areas

- a) **Plan Components specific to these areas is needed**

Note: system driver (wildfire, invasive species, insect and disease, and climate change) are integrated into each section as appropriate.
